

Puppy Slip Leads

Strong enough to handle a Rottweiler, gentle enough to train a Chihuahua. The all new multipurpose “Puppy Slip Leads” by Sam’s Dog Hut is used in training puppies as well as used in handling the bigger dogs too. Sam’s Dog Hut “Puppy Slip Leads” are made with 1/4” diameter rope that easily coils and placed into the pocket. No more worries of what to do with a bulky leash during field trials, hunt tests, training or handling, and yet readily available when needed.

Soft as Silk

Gentle on your hands, Gentle on your Companion, our Leashes are made with the finest materials available. Unlike others, we do not use scrap leather, rusted or tarnished rivets or hardware, or low grade Polypropylene cordage. Our Polypropylene cordage is woven several times over producing extra smoothness and softness and yet maintaining its strength, as well as preventing less rope fraying and hand burns. In addition, we purchase only quality cowhides which allow us control over consistency in color, thickness and strength. Also, we use special glue that was exclusively designed for us, glue that will not fall apart, even left in water for months. Rest assured at Sam’s Dog Hut, our leashes won’t become Unglued, Unraveled or Unwanted.

Available in either 4' length or 6' length

Description	Black & Lime	Pink & Lime	Purple & Pink	Navy & Sky Blue	Purple & Lime	Blue & Lime
