

## Outstanding Blankets by Sam's Dog Hut

Now this is a blanket, after a hard day of chasing my tail, I look forward to snuggling with one of Sam's Dog Hut heavy duty, double layered fleece blanket, for this blanket is worth its weight in gold. Sam's Dog Hut blankets are made with anti-pill micro-velour plush fleece that is extremely soft and durable. No need to worry about unravelling serge edges like so many of those cheap and thin one ply blankets on the market. Sam's Dog Hut Blankets are made to be use in any kind of environment. Why sometimes I have it in my crate, other times in my stroller or playpen, or just simply like snuggling with it on the floor. Recently, I noticed that my two-legged friend has their own matching blanket that they snuggle with by the fire or while watching TV. Sometimes they even snuggle with me under their blanket whispering sweet nothings in my ears. In any case, Sam's Dog Hut will have you covered.
