

Snap Leashes

For those who demand the best, our Snap Leashes are built with you in mind, same quality materials and craftsmanship as our Slip Leads, but made with man's oldest metal, Solid Brass. Its beautiful rich yellow color is exceeded only by its durability. Our Snap Leashes are built with a heavy duty Solid Brass Swivel Snap that turns on a pivot, and yet easy on your hand, easy on your companion. In addition, for those who attend field trials, hunt tests, training or handling events, our Snaps Leashes have a ring on its handle for easy snap to ring when the leash is not being used or can be worn diagonally across the shoulder leaving hands free, or shortened for use in traffic or if you simply just want to shorten your leash. At Sam's Dog Hut, follow our lead and snap onto outstanding quality that is not only functional and reliable, but fashionable. Remember, if it's not from the Hut, you may find yourself in a Rut, Snap Leashes by Sam's Dog Hut.
